DALY-WEST GOES AFTER QUINCY

Expected Suit Was Filed in Federal Court Yesterday.

INJUNCTION IS ASKED FOR

VALUE OF PROPERTY IN DIS-PUTE PLACED AT \$1,000,000.

THE first gun in what may prove to be one of the most stubbornly contested bat'les for rights to rich mining ground was fired yesterday, when the Daly-West Mining company bunched a suit in equity against its neighbor, the Quincy Mining company, with properties lying side by side in the famous old Park City district.

For the rast two months or more the management of the Daly-West, it is claimed, has tried to convince the Quincy management of the error of its ways, and while join, surveys and joint inspections of the two mines have been going on, with statements from both sides that a most neighborly feeling ex-isted and that matters would certainly be adjusted without resort to law, the sequel shows a storm was brewing all

Particularly irritating, it is claimed by the Daly-West people, was the ac-tion of the Quincy crowd, for all the time it was expressing such brotherly affection for the Daly-West, it has been affection for the Daly-West, it has been taking about 1,000 tons of high-grade ore out of its shaft, marketing the same and pocketing the proceeds, it is alleged. After negotiations were started, it is further claimed, the Quincy increased its out-tracted. An order of survey is then entered, but it applies to all parties to put and made no pretenesed its out-the suit. Any contracts the suit. put and made no pretense at tapering off till both sides could learn where

were at. Touching on conditions that have caused the rupture, it may be well to explain that from the moment the Quincy company was organized it has been a matter of history that the organizer declared his belief that the Putnam ground held an apex to one of the Daly-West yeins. Later it became ing to the court

United States circuit court.
In it the plaintiff company alleges

In it the plaintiff company alleges ownership of the ores being mined by the Quincy, as well as the right to the ground itself, the value of which it places at more than \$1,000,000. After reciting the standing of the companies and the fact that the Daly-West has been in possession of fifty-six certain claims for the past ten years, which are carefully described, the bill sets forth that the Quincy company, claiming to be the owner of certain alleged ing to be the owner of certain alleged mining claims adjacent to the property of the orator, asserts some title to the mineral ore bodies beneath the surface of the Daly West claims grade the surface has been of the Daly-West claims, such asser tion of ownership being adverse to the

orator's rights and ownership.

It further sets up that the claims and assertions of the defendant have tended to "greatly cloud, impair and encumber the title of your orator to the said premises and the ores and min-erals therein contained, and the acts of said defendant work great and ir-reparable injury, loss and damage to

ing and extracting the ores and min-

premises in dispute, or taking any ores therefrom, and that the injunction be smelter trust's NEW SCHEM. hearing of the suit it be decreed that the defendant has no right, estate, title

York Hereafter. or interest whatever in or to said premises or the ores and mi. erals therein. The bill finally asks that the mator be reimbursed for its costs "in this behalf most wrongfully expended." The complaint is sworn to by Henry McCornick, secretary of the Daly-West company of Colorado-the reorganized

Judge Marshall is on the coast, and will be done in the case until his return next week.

OIL, COAL AND RAILROADS.

Buzzing Business Reported in Each From Emery County.

Huntington, Utah, Feb. 24.—The oil interests of Emery county are coming to the front more and more every day, as there are eastern men, northern

of fields in the world.

The Rio Grande Western has a corps of surveyors north of Ferron running a line as negr the coal belt as possible, and if that is their object, the best route would be just west of Huntington, past the mouth of Cedar Creek and Miller Creek canyons, and down into Price. By doing this they would only workings are now so close together. Price. By doing this they would only have to build branches three to four that another connection for "ventila-

miles long to get at some of the finest coal veins there are in the country.

There is no question but Emery county will in the near tuture lead in the coal and ofl industry. Especially the former, as there are several hundred thousand acres of as good coal land as there is in the world. In some places five and six veins crop out one places five and six veins crop out one above the other, ranging in thickness from four to twenty feet.

There are now several outfits of men in the mountains west of Huntington locating and developing coal claims. C. S. Beach is now with a gang of men up near the head of the canyon, locating coal lands and doing enough work on them to secure the right to get title from the government.

D. C. Robbins also has a number of

men at work building cabins, opening coal veins and making roads. His company claims 147 quarter sections of coal land, and from the amount of work they have done and are doing now, they are determined to hold possession against all comers.

William Howard also represents a company that controls sixty claims of

company that controls sixty claims of 160 acres each in Cedar Creek canyon, about nine miles northwest of Huntington. They are also doing a lot of development work on some of the best coking coal veins there are in the

BEN BUTLER GAINS A POINT.

Judge Hall granted a restraining or der and motion for a survey yesterday in the case of the Ben Butler Mining company vs. H. A. Kee et al., defendants, and the Chicago & Bingham company and the New Hope Mining company, defendants by order of the court. His honor orders that until further notice the New Hope Mining company, lessee, may extract ores from the territory in dispute, but the ore must be left upon the dump subject to the further notice the New Hope Mining company, lessee. left upon the dump, subject to the fur-

the suit. Any party may survey the premises of any other party, either on or beneath the surface

rounam ground held an apex to one of the Daly-West veins. Later it became known that the ore had been struck and that its dip was foward the big corporation's territory.

Whether conditions are such that the Quincy can establish its right to follow that vein down and mine it, is now in dispute, and to bring the question to a conclusion one way or the other. the Daly-West company, through its attorneys, Dickson, Ellis & Ellis, yesterday morning filed a bill in equity in the United States given to court till a few days ago, when the Kee forces, by raising from their tunnel level, broke into the Ben Butler workings through the ore chute from which the latter had been excluded by the

court's order. Fearing that the Liberal crowd would undertake to market the ore they had broken into and were still working in, an application was made to Judge Hall on Friday last for an order stopping the Liberal forces from removing ore from the mine and asking the privilege of doing some surveying in disputed territory. The order described above has been the result of the Ben Butler's

TWO NEW COMPANIES.

One For Mesa County, Colo., the Other For Soldier Summit.

The following oil companies filed articles of incorporation in the office of the county clerk yesterday:

The Cabeza-Debeque Oil company; capitat \$100,000, divided into shares of your orator and its said property and premises."

The complaint continues: "The defendant by means of certain underground workings and excavations has entered in and beneath the surface of the said claims and premises of your orator, extended down recently, and has mined, extracted and is now min-

Colorado Summit Oil & Shale company; capi- latter figure erals therein contained, against the protest and without the consent of your orator all of which your orator alleges is wrongful and unlawful and contrary to equity and good conrience.'
The court is finally petitioned to mit group of fourteen claims and the

grant a writ of subpoena requiring the Quinc, company to answer the several Utah counties, embracing about 2.120 allegations; to set forth any and every acres. The property is located one to adverse claim or demand, to the end that the same may be duly adjudicated Soldier Summit. It adjoins the Summit and the title of the orator confirmed. Placer company's ozokerite property That the orator be granted a writ of on the north and is west of Leiter's injunction, commanding the Quincy elaterite claims. The company intends company to desist from working on the to put down a well this season.

York Hereafter.

A New York correspondent of the Boston News Bureau says: "The American Smelting & Refining con pany announces that hereafter no stor of lead will be carried in New York. I this way nothing better than promi shipments from the west can be of tained by consumers here. This movis looked upon as another step to force the consumer to carry the surph stock. While prices were at a fix basis, with no inducements for the corsumers to carry stock, they have sim ply purchased spot according to the nmediate requirements.
"This feeling has become a strong

one with buyers, who seem to be place With his business affairs here all ing contracts for maximum requir micely adjusted and the plans of camments rather than minimum. T ments rather than minimum. To paign at the Boston Consolidated and Cactus fully mapped out, Samuel Newhouse took his departure last night. During the day he announced that, accompanied by two of his engineers, he would proceed at once to Arizona.

GOLD MOUNTAIN SALE.

Madsen G. M. & M. Co. Rounds Ou Its Possessions in That Camp.

John Moore, the veteran Gold Moun tain operator, closed a deal yesterda have his forces organized within the next two weeks.

That off his hands, he will join Mrs.

Newhouse in New York, and together they will sail in one of the made over to the Madsen Gold Mining & Milling company his Tom Moor claim, which forms the connecting lin they will sail in one of the great trans-Atlantic liners on March 11 for a six or eight weeks' trip to Wiesbaden, Ger-many. "The trip abroad will have no but company's ground in perfect shape and he looks to see the property turn out

as there are eastern men, northern men, western men and southern men, some of whom have money, some representirg capitalists and some who are here to see if they can find land that is not already located.

While all is not true that goes out about oil, there is enough truth to stamp eastern Utah as one of the finest oil fields in the world.

The Rio Grande Western has a corps of surveyors north of Ferron running a victor workings.

The reported Boss Tweed strike has turned out as hinted at in yesterday's Herald. The Victor was mining in close proximity to where the Tweed forces were drifting, and a cross-cut was made by the latter to learn what was going on. Monday morning a round of holes broke the barrier between them down, and now both mines enjoy splendid ventilation.

There was talk yesterday that the Victor had encroached on Boss Tweed

BRAIN FOOD.

Is of Little Benefit Unless It Is Digested.

Nearly everyone will admit that as a nation we at too much meat and too little of 'A', ables and the grains. For bugin s men, office men and clerks, and in fact everyone engaged in sedentary and in fact everyone engaged in sedentary or in-6.0r occupations, grains, milk and vegetables ar, much more healthful.

Only men engaged in a severe, out-door manual labor can live on a heavy meat diet and continue in health.

eaten.

But many of the most nutritious foods are difficult of digestion, and it is of no use to advise brain workers to eat largely of grains and vegetables where the digestion is too weak to assimilate them properly.

tion is too weak to assimilate them properly.

It is always best to get the best results from our food that some simple and harmless digestive should be taken after meals to assist the relaxed digestive organs, and several years' experience have proven Stuart's Dyspepsia Tablets to be a very safe, pleasant and effective digestive and a remedy which may be taken daily with the best results.

Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they do not act on the bowels nor any particular organ but only on the foot eaten. They supply what weak stomachs lack, pepsin diastase, and by stimulating the gastric giands increase the natural secretion of hydrochloric acid.

People who make a daily practice of taking one or two of Stuart's Dyspepsia Tablets after each meal are sure to have perfect digestion which means perfect health.

There is no danger of forming an in-

ealth.

There is no danger of forming an inurious habit, as the tablets contain abolutely nothing but natural digestives;
ocaine, morphine and similar drugs have
o place in a stomach medicine, and
tuart's Dyspepsia Tablets are certainly
he best known and most popular of all
tomach remedies.

stomach remedies.

Ask your druggists for a 50-cent package of Stuart's Dyspepsia Tablets, and after a week's use note the improvement in health, appetite and nervous energy.

TONE OF THE MARKET VARIES

SLUGGISH MOVEMENT OF THE STANDARD STOCKS PUZZLING.

New York. Feb. 25 .- Today's stock mar-

New York. Feb. 25.—Today's stock market was again largely devoted to obscure specialties, both in the railroad and industrial lists. Most of these showed advances and the entire lack of explanation of the movements pointed to manipulation by speculative peols. Some of those which have advanced heretofore were undergoing a process of profit taking. The relapses thus caused were sometimes exceedingly sharp. Thus an advance of 2% in St. Joseph & Grand Island was abruptly wiped out by two or three sales at the last, which carried the stock a fraction below last night, and the first preferred, after rising 1½, relapsed 3%. A similar abrupt dip was made last night by Chicago. Indianapolis & Loutsville. and that stock moved up this morning 3%, but lost most of it.

The minor stocks which were strong today included the Duluth, South Shore & Atiantic stocks, the Ann Arbor stocks, Fort Worth & Denver City second preferred, the Chicago Terminal stocks, Chicago Great Western, Kansas City Southern, the American Linseed stocks, Glucose, Rubber Goods, American Grass Twine, Twin City Rapid Transit, Westinghouse Electrical common and first preferred, and General Electric. Gains in this group ran from 1 to 5 points. There were losses of from 1 to 2 points on profit-taking in a number of similar stocks, and National Salt was down 7 points from its last sale. There was a desultory speculation here and there among the high priced industrials, and in one or two groups as a whole, but the movements were of little significance and the tone of the market was at all times mixed and irregular. Amalgamated Copper and Sugar were inclined to heaviness.

The first was affected by reports that the nurchase of a mine renorted vestor. The first was affected by reports that

sessment of 4c a share.

The Conklin sampler reported ten cars of ore from Tintic yesterday.

Judge J. W. McConneil left Monday night for a business trip to Denver.

The Yankee Consolidated landed another seven-car lot of ore at the sampler yesterday.

Two cars of Lower Mammoth and one of Mammoth will be released from the sampler today.

A lot of high-grade gold-silver ore is on the market today from the Woodbutcher property at Pioche.

The Utah company will today market a carload of high-grade silver-lead ore from its Fish Springs property.

C. O. Ellingwood, chief clerk in toffices of the Western Exploration company, went up to Ogden last night on short business trip.

Manager Van Patten of the Bazouk Consolidated came down from Ogden yesterday and will go out to that prospective Bingham bonanza today.

GRAIN AND PROVISIONS.

Chicago, Feb. 25.—Reaction after yesterday's heavy depression in grain was the feature today, and covering of shorts, influenced by a good business from foreigners, influenced the tone of all markets. May wheat closed with a gain of ye, May corn ye and May oats ye up. Provisions closed a shads to 256 lower. Following yesterday's heavy liquidation the wheat trade hardly knew what to expect at the opening today. There was a possibility of another such day, but the entire local contingent felt like playing for a recovery on the theory that prices had broken enough. Cables were unresponsive to our depression and the early business was marked by covering. Liquidation for a time, however, held prices down again, but they made a final rally. Then came in reports of better foreign demand. Clearances were large. Bradistreet's reported a visible supply decrease for the world of 2,041,000 bushels, and late reports had it that the melting snow showed damage to the winter crop not known before. Pit traders bought cautiously, the liquidation practically ceased and liberal covering set in again. Trade was heavy while prices were on their early upturn, but quieted down later. Some professional bulls secured low-priced stuff with a view to later profits. Cash business also improved. May opened a shade to 36 higher at 75% to 76%, slid off to 75 and reacted to 75%. The close was firm, May 1½c up to 75%. The close was firm, May 1½c up to 75%. The close was firm, May 1½c up to 75%. The close was firm, May 1½c up to 75%. The close was firm, May 1½c up to 75%. COULDN'T DO IT.

Milk Diet Failed.

Food that will actually lift one out of a sick bed is worth knowing of. A

of a sick bed is worth knowing of. A Chicago lady writes: "I want to tell of a positive cure Grape-Nuts Food has made in a case that was considered almost hopeless.

"I know you do not look upon Grape-Nuts as a medicine, but, inasmuch as the food certainly does build up wornout systems, it seems to me it is closely allied to a tonic. Now about the cure.

"Last spring a dear girl friend fell ill and was taken to one of the hospitals, but weeks before entering the hospital she had been able to take nothing but milk to nourish her, all other foods distressed the stomach so much that she tried to live on the milk alone.

"I worked away at the resident physician until he consented to my taking her home to see what the change would do for her. The poor child was so very weak and nervous and so frail that felt quite dubious about the outcome, nevertheless I knew enough about Grape-Nuts Food, which I intended to give her, to feel that it would bring her out. After she had rested a little

good result. Gradually and cautious-ly I increased the amount until after a few days she was able to eat a saucer full with no bad effects.
"She lived on Grape-Nuts entirely

and gained strength so rapidly that she soon recovered, and now recommends Grape-Nuts to all her friends. She says she would be glad to have any one who is suffering from stomach trouble write her, and she will tell what Grape-Nuts Food has done for her, and how grateful she is to the man who had the forethought to manufacture a food already digested so that weak stomachs can take it. Her name is Lillie M. Gestabt, 4416 Wabash

avenue, Chicago. "A clergyman of our acquaintance eats a dish of Grape-Nuts before preparing his sermon. I asked him once if he got inspiration from the food. He said. 'Not only that, but it seems to clear my mind and make my "thirdlys" and "fourthlys" come much more bulls and encourage further short self-Second pfd. 83% Preferred 59 cough, which can be cured instantly by Kemp's Balsam for the Throat and Lungs, which is guaranteed to cure and relieve all cases. started early by steady cables, both for shorts and for investment, by those who hope soon to bull the market again. There was not much said one way or thabout country offerings, although

was not much said one way or the other about country offerings, although the expectations were rather for a restricted movement. There was a big business done early and the country came and played both ways. The increased receipts had a depressing effect, but the market was sufficiently strong to overcome that influence. It is thought the liquidation is about over. Foreigners bought to some extent. May opened unchanged to so higher at 59½ to 59%, and sagged for a time to 59½, and then sold to 60½,66½, and closed firm, %c up, at 60c. Receipts, and closed firm, %c up, at 60c. Receipts, and closed firm, %c up, at 60c. Receipts, were sold as the same proved over that of last week. Some selling was done on the increased receipts, but corn influenced covering and better prices. May sold as low as 41½ and closed firm at its top figure, %c higher, at 42½. Receipts were 317 cars.

Provisions ruled dull and slightly easier, The lower prices for hogs at the yards induced some early selling.

The leading futures ranged as follows:

Wool Markets. St. Louis, Feb. 25.—Wool—Steady, Territory and western mediums, 18618; fine, 12617; coarse, 12616.

Boston, Feb. 25.-The wool market her ber out. After she had rested a little while I warmed some milk and poured it over a tablespoonful of Grape-Nuts and persuaded her to take it. She did so with fear and trembling, for she did not expect to keep the food down. After giving her the food I started to read her a story, and although it was an interesting one, she fell asleep. When she finally awoke her first words were, 'Did I really keep the Grape-Nuts?'

"She had kept them but could scarcely believe it. After two or three hours I gave her a little more with the same good result. Gradually and cautious-
